

I am writing to express my concern that K-love radio may loose some of its FM stations to new LPFM stations. Please reconsider giving LPFM priority over K-love. As you may or may not know, K-love is a listener suported radio station that supports the Christian community with Christian Music and ministry messages. They have reached many people who are hurting and in need of support. They are listened to by hundreds of thousands of listeners daily on a variety of station numbers. I myself listen to them on at least 5 different station numbers depending on where my job travels take me.

Please allow K-love to continue its ministry and spreading the word of our Lord in a loving way.

God bless you and the work you are doing.

Mike Pulliam
